

LITIGATION

Representation includes advice and counsel in all aspects of litigation, including trials, appeals, and alternate dispute resolution such as mediation and arbitration.

Our attorneys have appeared for plaintiffs and defendants in jurisdictions throughout the Commonwealth of Virginia and elsewhere, both in state and federal courts.

The nature of litigated matters has been vast and by way of illustration involves insurance defense and coverage matters, product liability, contract actions, employment disputes, shareholder/partner disputes and partnership and corporate dissolutions, trade secret litigation, construction disputes, negligence and personal injury, and real estate matters.

Litigating disputes can be disruptive and costly to individuals and businesses. We are prepared to represent clients in avoiding costly litigation, in exploring alternate dispute resolution, and in appropriate cases, aggressively litigating those matters where litigation is the most appropriate remedy.
